

AKILESH M V

FRONTEND DEVELOPER

Cuddalore, India | [Mail Id: akileshvel21@gmail.com](mailto:akileshvel21@gmail.com) | 9655954136
Linkedin : [linkedin.com/in/akilesh-vel-3260813a2](https://www.linkedin.com/in/akilesh-vel-3260813a2) | GitHub : github.com/akilesh-vel

CAREER OBJECTIVE

Aspiring Frontend Developer with a B.E. in Computer Science (Artificial Intelligence) and a strong theoretical foundation in computer science fundamentals. Skilled in HTML, CSS, and JavaScript with hands-on experience building responsive, interactive, client-side web applications. A quick learner who enjoys turning ideas into clean, functional interfaces, and is eager to contribute to a dynamic development team while continuing to grow technically.

TECHNICAL SKILLS

- Languages & Web Technologies: HTML5, CSS3, JavaScript
- Frontend Concepts: DOM Manipulation, Responsive Design, CSS Grid & Flexbox, UI/UX Basics
- Core Foundations: Data Structures, Object-Oriented Programming, Computer Science Theory
- Tools & Platforms: Git, GitHub, VS Code, MS Word, MS Excel
- Currently Learning: React.js fundamentals, API integration

PROJECTS

NeuroText Analytics – Client-Side Text Analysis Dashboard

Personal Project | HTML5, CSS3, JavaScript

- Built a fully client-side text analytics dashboard using vanilla JavaScript, HTML5, and CSS3 that updates results in real time as the user types.
- Implemented core text metrics including character, word, sentence, and paragraph counts, along with estimated reading and speaking time.
- Developed word-level analysis features such as longest word detection, average word length, and numeric/special character counts.
- Designed a keyword-based sentiment analysis engine that classifies text as Positive, Negative, or Neutral with a live sentiment score.
- Added utility features including one-click text copy, downloadable analytics report (.txt), extra-space cleanup, and workspace reset.
- Created a fully responsive, dark-themed UI using CSS Grid and Flexbox for a seamless experience across devices.
- Structured the codebase with clean separation of HTML, CSS, and JavaScript for readability and easy maintenance.
- GitHub: github.com/akilesh-vel/Neuro-Text-Analytics

Personal Portfolio Website

Personal Project | HTML5, CSS3, JavaScript

- Designed and developed a multi-section personal portfolio website covering Home, About, Skills, Education, Projects, and Contact.
- Built a fully responsive layout with a mobile-friendly hamburger navigation menu using vanilla JavaScript.
- Implemented a dynamic typing-text animation to display rotating role titles on the landing section.
- Added a dark mode toggle that switches the entire site's theme in real time using JavaScript and CSS.
- Linked project cards directly to GitHub repositories for quick recruiter access to source code.
- GitHub: github.com/akilesh-vel/Akilesh-M-V-Interactive-Developer-Portfolio

EDUCATION

B.E. Computer Science and Engineering – Artificial Intelligence

Sathyabama University, Chennai, Tamil Nadu

Year of Passing : 2025

CGPA: 7.77

STRENGTHS

- Strong theoretical foundation in computer science and problem-solving
- Quick learner, adaptable to new tools, frameworks, and technologies
- Detail-oriented with a focus on clean, maintainable code
- Good communication and collaborative team player
- Self-motivated, with a habit of building projects independently to learn by doing

AREAS OF INTEREST

- Frontend Web Development
- User Interface (UI) Design
- Web Application Development

DECLARATION

I hereby declare that the information provided above is true and accurate to the best of my knowledge.
